Diploma in Sport Science and Management

WHY CHOOSE IMSC?

High Employability

Prepare students to meet the needs of the future industry

Industry Relevance

Industry experts to help keep our programmes relevant

Industry Recognition

Received endorsements from industry-leading organisations

International Partners

Established partnerships and worked with industry-leading education institutions

COURSE OVERVIEW

The Diploma in Sports Science and Management is designed to provide well-rounded knowledge and skills in the area of Sports Science and Sports Management. At the end of the course, students will demonstrate both practical and theoretical understanding of various topics in these fields. This will provide a strong foundation for further education and also prepare students for work in the industry.

JOB PROSPECTS

- Competition Manager
- Talent/Sports Development Manager
- Sports Administrator
- Sports Marketing Executive
- Sports/Events Management Executive
- Sports Scientist
- Exercise Physiologist
- Fitness Centre Manager
- Strength and Conditioning Trainer
- Sports Therapist
- Gym Manager
- Sports Coach
- Health Promotion Specialist

Cert No. : EDU-2-2149
Validity : 11/04/2022 - 10/04/2026

RCB No. 200305869C | Exp: 13 July 2022 - 12 July 2026

COMPULSORY CORE MODULES

No.	Module Title
1	Sport Administration
2	Sport Marketing
3	Sports Facilities and Events Management
4	Human Anatomy and Physiology
5	Sport Psychology
6	Sport Nutrition
7	Strength and Conditioning
8	Biomechanics and Sport Technology

MODULES DESCRIPTION

SPORT ADMINISTRATION

Organisations are constantly in demand for information and expertise to help make big decisions. Learners will be taught the recognized duties of management positions, from an overview of basic supervision skills to focuses on contemporary issues. This module prepares the prospective sport administrator a comprehensive and contemporary introduction to administration, organization, and management principles and their applications in the broad sports settings.

SPORT MARKETING

Sports Marketing focuses on promotion of sports events, team, products and services through sporting events and teams. Today, it even ventures out of sporting events into the corporate world. This module provide learners with knowledge of topics include advertising, promotions, public relations, location, pricing, sponsorships, licensing, market segmentation, and the role of research.

SPORTS FACILITIES AND EVENTS MANAGEMENT

This module involves the study of the principles, guidelines, and recommendations for planning, constructing and maintaining indoor or outdoor sports and fitness facilities. It also examines the principles and skills needed to management sport facilities and the events occurring within them.

HUMAN ANATOMY AND PHYSIOLOGY

This module studies the structure and function of several systems of the human body. Anatomy and physiology understanding forms the fundamentals of various other topics related to sport and exercise fitness. Learners will be exposed to metabolic processes, many body systems, homeostatic control mechanisms and adaptations during exercise.

SPORT PSYCHOLOGY

Sport performance depends on several sport science disciplines. Sport psychology is one that focuses on the experiences, motivation, adherence and mental skills related to sport and exercise. This module aims to provide understanding on psychological concepts and factors that would influence exercise participation and sport performance.

MODULES DESCRIPTION

SPORT NUTRITION

Sport performers are seeking out every opportunity to improve their sporting achievements. As a result, some are engaging in sports nutrition for optimization of sport and exercise performance. This module aims to provide understanding to principles of nutrition and how these strategies can aid in the enhancement of sport and for health.

STRENGTH AND CONDITIONING

Muscular strength is important for activities of daily living, bone health and better metabolism and posture. Strength training is bread and butter in athletic development, but it should be done with specific plan and purpose. This module aims to provide concept and practice-based understanding of muscular fitness and conditioning, use of periodization and development for different sport and exercise participants.

BIOMECHANICS AND SPORTS TECHNOLOGY

Sport biomechanics is a study of mechanical laws related to the movement or structure of the human body in sporting context. This topic allows us to gain understanding of athletic events through measurements and analysis. This module provide learners the basic mechanical concepts, laboratory equipment and software to study human movements.

INDUSTRIAL ATTACHMENT*

Upon completion of all 8 modules, students are required to undertake 6 months of an industrial attachment with an organization of their choice. Students will be required to submit reports and evaluations during the attachment.

FINAL PROJECT

Students who are unable to secure an Industrial Attachment can opt for the Final Project as a replacement. Students will be required to complete a research paper and do a presentation on a topic of their choice under the guidance of a lecturer.

About IMSC

The International Management and Sports College (IMSC) was formed after a rebranding exercise undertaken by the International Sports Academy (ISA).

ISA was founded in 2003 to provide the much-needed knowledge and skills required to empower individuals with the right tools to achieve success in the burgeoning sporting industry. Together with our partners from the United States Sports Academy, the National Strength and Conditioning Association, and the American Council on Exercise, we offer quality certifications and diplomas that are recognised internationally, to provide our students with an edge in the sports and fitness industry.

Over the years, the sports and fitness industry has evolved greatly and the local sports scene has seen an explosion of world-class sports events like Formula One and the WTA Finals. There is now a demand for trained personnel not just in sports and fitness, but also in tourism, hospitality, events management, marketing, retail, and facilities management. Thus ISA was renamed International Management and Sports College (IMSC) to better reflect our increased course offerings in business, tourism and hospitality management to better serve the changing needs of the industry.

IMSC will continue to serve as Singapore's and the region's premier private education institution, in providing a holistic education that equips individuals with the skillsets and competencies required for the future economy. We offer a series of quality academic programmes, professional certifications and continuing education courses to cater to varied needs and schedules, in helping our students achieve their goals in lifelong learning.

OUR MISSION

To provide a holistic education that equips individuals with the skillsets and competencies required for the industry.

OUR VISION

To develop industry-ready individuals for the future economy.

OUR CULTURE

Where success is not quantified by just the result, but rather by the calibre of the pursuit.

OUR VALUES

Passion | Progress | Purpose

Why choose IMSC?

- Conferred Edutrust (4-Year) Award by the Committee for Private Education for maintaining high standards in providing quality education services.
- Recognised as an Approved Centre by OTHM Qualifications, which are approved and regulated by Ofqual in the UK.
- Appointed Education Partner by University of Portsmouth for Sports Science and Sports Management programmes.
- Named Most Preferred Private Education Institute for Diploma/Advanced Diploma (Sports and Recreation) by JobsCentral Learning Survey.
- Provides early industry exposure and job placement assistance through extensive industry network.
- Endorsed by leading industry employers such as Virgin Active, True Fitness, the Pure Group, Triple Fit, among others.
- Offers continuing education courses for increasing skillsets.
